DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 1 recite, inter alia, "A fixing mechanism arranged within a probe unit for examining the electrical characteristics of a target object, the target object being maintained under a high-temperature environment within a probe chamber, Comprising, a holding frame configured to hold the probe card and the support frame in the outer peripheral portions thereof so as to permit the probe card to be thermally expanded toward the periphery thereof, the holding frame being fixed to the probe unit; and a plurality of second fastening members configured to fasten the holding frame on the support frame to fix the holding frame."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Yamazaki (U.S. 6,545,458) discloses low-temperature test equipment and Yam (U.S. 6,179,465) discloses a Method and apparatus for infrared pyrometer calibration in a thermal processing system using multiple light sources, they do not disclose the above-mentioned limitations.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
